

SYNTHETIC SAMPLE - NOT A REAL RECORD

Northfield State University, Department of Computer Science

Date: December 3, 2018

To the Graduate Admissions Committee,

I am writing to recommend Alex Rivera for your Master of Science in Data Science program. Alex took my Algorithms course and led our senior capstone project, Predicting River Flooding with Low-Cost Sensor Data.

Alex ranks among the top five percent of students I have taught in fifteen years.

Sincerely, Professor Dana Okafor
